Plastic Bottle Water – Average Pricing

One person = ~2,000 bottles of water per year.

If (poor quality) 35 cents/bottle =

...\$700/year/person.

**Plus health affects: lethargy, acid reflux,
acid water, achy body, brain fog?**

A family of 4 will bring that cost to \$2,800/year.

...plus health affects...

Bottled water only covers drinking.

Not showers, dishes, cleaning, handwashing, exposure?

What is the health cost,
to wash or not to wash?

\$2,800/year – for how many years?

+ inconvenience and unwellness.

Temporary band-aid, not a solution.

Ongoing problem = stress.
