

CleanWaterCleanAir™

Drink Clean – Breathe Clean – Sleep Well

CleanWater Whole Home Filtration Package For Well Water Systems

Includes One Whole Home Unit, Two UnderSink Units
And one LivingWater Machine

UnderSink Unit

LivingWater Machine

Select Whole Home Package 5 – 10 GPM
Whole Home Package 10 – 20 GPM
Whole Home Package 20 – 40 GPM

Stage 1

Stage 1 uses a multi faceted filter to filter out large particles greater than 5 micron and to condition the incoming water so it can no longer form calcium carbonate. This filtration process extends the life and reduces maintenance of the proprietary element in the next stage.

- Filters out sediment
- Conditions water so glasses and faucets remain spotless

Stage 2

Stage 2 uses our proprietary Hi Flow/Hi Capacity mechanical filters to remove some bacteria/viruses as well as further removing particulate to enhance Stage 3 filtration performance.

Stage 3

Stage 3 uses our proprietary proprietary filter to filter out bacteria, viruses, cysts, spores, and other pathogens. It is engineered with an activated carbon high surface area paper to reduce pathogens, pesticides, pharmaceuticals, forever chemicals (PFOA/PFOS), and heavy metals (including lead). Incorporates Agion silver particles to keep filter from biofouling.

Compliant
NSF Standard 42
Class I Particulates
Cysts, Extraction

Compliant
NSF Standard 53
(PFOA/PFOS) less than 20 Parts Per
Trillion
(10PPPT PFOA/10PPPT PFOS) Chlorine
Reduction, Extractions

Compliant
NSF Standard 61
Extraction and Pressure

Compliant
NSF Standard 372
NSF Lead-Free
